Advisor Signature D		Date			

To graduate, all students must successfully complete all course work in a manner consistent with the guidelines for that course. All students must complete a comprehensive exam in the semester in which they intend to graduate in order to graduate. Completion of the exam requires the student to submit written responses to a set of questions provided by the Department at least five weeks prior to the last day of class. Should the responses not be acceptable, the Chair or Graduate Coordinator will require the student to rewrite the responses one time. If the student doesn't pass the exam they may retake it once more.
