It's not too early!

The Summer and Fall courses on the schedule have been loaded in to D2L. If you don't see them - please click on the course selector and type Summer 2025 or Fall 2025 into the search and you can pin the courses to your quick access list.

It is not too early to make an appointment with one of our Instructional Designers to work on your course. If you are doing an overhaul or just looking for the button, we are here to help!

Coming May 2025

D2L is updating the Quiz Evaluation Workflow to align with the Discussion/Assignments Evaluation Workflow.

Starting May, before the update becomes default in July, you will be able to opt in and try the new workflow before the current workflow retires. This only affect tests that have a manual grading component, settings and auto grading will stay the same.

Ally/ADA Training: Please email zack.shanks@msutexas.edu
