Dear Furniture Distributors,

We invite your company to submit a furniture proposal for the Phase 2A portion of the Moffett Library Renovation. Please see the attached Request for Proposal provided by the MSU Purchasing & Contract Management Department for proposal requirements and due dates. Additional information, instructions, and requirements are listed below.

I. PROJECT DESCRIPTION:

The project is located at Midwestern State University. Three floors, totaling approximately 45,000 square feet of existing space is being re-purposed to improve and update the library. This phase of furniture, phase 2A, includes only small portions of the second floor. The following spaces are to be furnished: twenty-nine existing, small group study rooms, an existing computer lab, and four newly constructed group lounge study rooms.

Students using this portion of the library will use the space for extended periods of time, three to four hours would not be unusual. Furniture on this floor should encourage group study and maximize collaboration. All furniture must be comfortable and sturdy. Construction will precede the installation of furniture. Improvements to this area include new carpet, new and/or improved ceilings, installation of new power and data at the perimeter walls and interior columns, patching and painting.

The project architects are Holzman Moss Bottino Architecture and Harper Perkins Architects. The Construction Manager is Shane Darnell at M&F Litteken. Furniture space plans have been prepared by the architect and coordinated with the CM for new power and data distribution. The furniture distributor will need to insure that at all furniture requiring power and data have access to power and data.

The products specified in the attached documents are basis-of-design to determine quality and design intent. Alternate furniture products that meet a similar quality and design intent will be considered with the appropriate documentation. Furniture dealerships will work with Holzman Moss Bottino Architecture and the Owner on all fabric and finish selections.

Furniture for the project will be purchased through the MSU Purchasing & Contract Management Department and follow state guidelines for pricing. The selected distributor will be contracted directly to MSU and will provide final design and furniture selection, procurement, and installation of all items. All distributor documentation must be in BIM.

Requested Furniture for this project includes*:

- (91) Student Chairs
- (16) Lounge Chairs
- (16) Powered, 2-Person, Computer Lab Tables
- (1) 4-Person Meeting Table
- (22) 2-Person Meeting Tables
- (8) Personal Laptop Tables

*All quantities to be confirmed via furniture plans.

II. SCOPE OF SERVICES:

The following scope of services shall be undertaken by each dealer:

1. Review existing Architectural Documents to become familiar with the existing space on the second floor of the Library.
2. Review the second floor construction plan, furniture plan, electrical and data plans as prepared by Holzman Moss Bottino Architecture and Harper Perkins Architects.
3. Review the specifications herein, as well as any and all additional documents or appendices sent through the MSU Purchasing & Contract Management Department.
4. Prepare furniture selection proposal, including any alternates, for owner review. Proposal shall conform with all requirements listed in the RFP and listed herein.
5. Coordinate with Holzman Moss Bottino Architecture and the Owner on all fabric and finish selections.
6. Prepare a furniture installation plan and schedule. To be fully coordinated with the CM and arrange coordinated deliveries of items. Contractor is responsible for all debris removal from campus.
7. Inspect furniture installation for conformance with bid documents and space plan.
8. Prepare a punch list for installation.
9. Oversee corrections to installation as requires to secure owner approval. Punch list damage to completed spaces finishes by furniture must be recorded and completed by installer.

III. ADDITIONAL PROPOSAL REQUIREMENTS:

In addition to all requirements and instructions listed in the RFP, all dealers must comply with the following:

1. Furniture dealers shall provide a tabulation sheet showing each item selected, quantity, list price, net price, and installed value. Fees indicating the total project cost should be divided into final documentation and owner approval, procurement, installation, and close out. All project related fees must be indicated in this summary.
2. Cut sheets to be provided for each item, including alternates.
3. When submitting an alternative: identify a product that matches construction, warranty, function, and general looks of the specified product. Power and data quantities must be met or exceeded without exception.
4. Furniture dealers shall submit warranties and sustainability documentation for each items specified and/or all substitutions. Substitutions maybe rejected if they do not meet or exceed those specified herein.
5. Dealer shall submit two sets of memo samples (preferably 6x6" or larger, no smaller than 2x4") for all final fabric and finish selections. Submit one set to Owner and one set to Holzman Moss Bottino Architecture.
6. Dealer shall submit a revised space plan in BIM showing proposed furniture selections. Key items to a final space plan indicating data and power hook up when applicable.
7. Furniture dealers to provide a written statement of follow-up service and punch list procedures.
